Online Safety Policy Statement

The purpose of this policy statement is to:

- ensure the safety and wellbeing of children and young people is paramount when adults, young people or children are using the internet, social media or mobile devices
- provide staff and volunteers with the overarching principles that guide our approach to online safety
- ensure that, as an organisation, we operate in line with our values and within the law in terms of how we use online devices.
- ensure staff are aware that they need to manage their own professional reputation online and demonstrate online behaviours that are in line with their roles and align with the organisation's values.

We believe that:

- children and young people should not be put at risk of harm or experience abuse
- children and young people should be able to use the internet for education and personal development, but safeguards need to be in place to ensure they are kept safe at all times
- it is the duty and responsibility of every member of staff to ensure that they are familiar with the Online Safety Policy and Procedures.

We recognise that:

- the online world provides everyone with many opportunities; however, it can also present risks and challenges
- we have a duty to ensure that all children, young people and adults involved in our organisation are protected from potential harm online
- we have a responsibility to help keep children and young people safe online, whether or not they are using YE/St Piers network and devices
- working in partnership with children, young people, their parents, carers and other agencies is essential in promoting young people's welfare and in helping young people to be responsible in their approach to online safety
- all children and young people, regardless of age, disability, gender reassignment, race, religion or belief, sex or sexual orientation, have the right to equal protection from all types of harm or abuse

We will seek to keep children and young people safe by:

- appointing online safety coordinators to support the Head of IT and Lead DSL
- providing clear and specific directions to staff and volunteers on how to behave online through our behaviour code for adults

- supporting and encouraging the young people using our service to use the internet, social media and mobile phones in a way that keeps them safe and shows respect for others
- supporting and encouraging parents and carers to do what they can to keep their children safe online
- developing an online safety agreement for use with young people and their parents or carers
- developing clear and robust procedures to enable us to respond appropriately to any incidents of inappropriate online behaviour, whether by an adult or a child or young person
- reviewing and updating the security of our information systems regularly
- ensuring that user names, logins, email accounts and passwords are used effectively
- ensuring personal information about the adults and children who are involved in our organisation is held securely and shared only as appropriate
- ensuring that images of children, young people and families are used only after their written permission has been obtained, and only for the purpose for which consent has been given
- providing supervision, support and training for staff and volunteers about online safety
- examining and risk assessing any social media platforms and new technologies before they are used within the organisation.

If online abuse occurs, we will respond to it by:

- having clear and robust safeguarding procedures in place for responding to abuse
- providing support and training for all staff and volunteers on dealing with all forms of abuse, including bullying or cyberbullying, emotional abuse, sexting, sexual abuse and sexual exploitation
- making sure our response takes the needs of the person experiencing abuse, any bystanders and our organisation into account
- reviewing the plan developed to address online abuse at regular intervals, to ensure that any problems have been resolved in the long term.

Related policies and procedures

This policy statement should be read alongside our organisational policies and procedures, including:

- child and adult protection and safeguarding procedure
- code of conduct and guidance for safer working practice
- use of mobile devices procedure
- anti-bullying procedures

These guidelines are agreed by the Director of Health, Research and Compliance/Deputy CEO and will be implemented by all departments.
